

Changes to Google

In March 2025 Google made changes regarding parental consent for students under 18 using additional Google services.

At Parua Bay School we use Google Workspace for Education, and we are seeking your permission to provide and manage a Google Workspace for Education account for your child. Google Workspace for Education is a set of commonly used education productivity tools from Google including Gmail, Calendar, Docs, Classroom and more.

At Parua Bay School, students will use their Google Workspace for Education accounts to complete assignments, communicate with their teachers, sign into their Chromebooks, and learn 21st century digital citizenship skills.

In addition to Google Workspace for Education, occasionally we may use other applications from the Google Suite such as Google Earth, Google Maps etc.

We are seeking your permission to allow teachers to use applications that they deem safe and relevant for the classroom context. If you do not give permission your child will not be able to access the tools noted above.

Please complete the questionnaire below by 9th May.

If you have more than one child at Parua Bay School, please submit a separate response for each child.

For more information on Google privacy policy please use the link below.
